of Correction**

Sir:

Pursuant to 37 C.F.R. § 1.322, patentees respectfully request that a Certificate of Correction be issued in the above-identified patent to correct an error in the title page of the issued patent. Form PTO/SB/44 is attached, showing the necessary correction. Specifically, it is requested that the Foreign Application Priority Data appear on the title page, as the certified copy of the priority document was provided to the U.S. Patent and Trademark Office prior to issuance of the application. The proposed correction does not constitute new matter or require reexamination.

Please note, as stated in 37 C.F.R. 1.6, the USPTO will stamp the receipt date on the postcard and place it in the outgoing mail. A postcard receipt which itemized and properly identifies the items which are being filed serves as *prima facie* evidence of receipt in the USPTO of all the items listed thereon on the date stamped thereon by the USPTO. As evidence, attached hereto is a copy of the stamped postcard receipt and documents filed on October 16, 2001.

Also, as stated in the MPEP on page 1480.01, where the correction requested was incurred through the fault of the Office, and the matter is clearly disclosed in the records of the Office, and is accompanied by documentation that unequivocally supports the patentee's assertion, a Certificate of Correction will be expeditiously issued. Such supporting documentation can consist of relevant photocopied receipts, manuscript

pages, correspondence dated and received by the Office, photocopies of Examiners' responses regarding entry of amendments, or any other validation that supports the patentee's request so that the request can be processed without the patent file.

Because the above-noted error was the fault of the USPTO, no fee is believed to be required. Please charge any fees associated with the submission of this paper to Deposit Account Number 033975.

Respectfully submitted,
